

# Enterprise OCR and PDF Converter: Foxit PDF Compressor Version 8

## What is Foxit PDF Compressor?

Foxit's PDF Compressor software provides businesses with fast, high-accuracy OCR equipped with the industry's best document-to-PDF conversion automation capabilities.

The software converts paper, scanned images, and born-digital content such as emails and Microsoft Office documents to text-searchable, compressed, fully optimized PDF and PDF/A files.

Foxit's PDF Compressor Version 8 is designed efficiency-first, with more features focused on

Fast

Automated

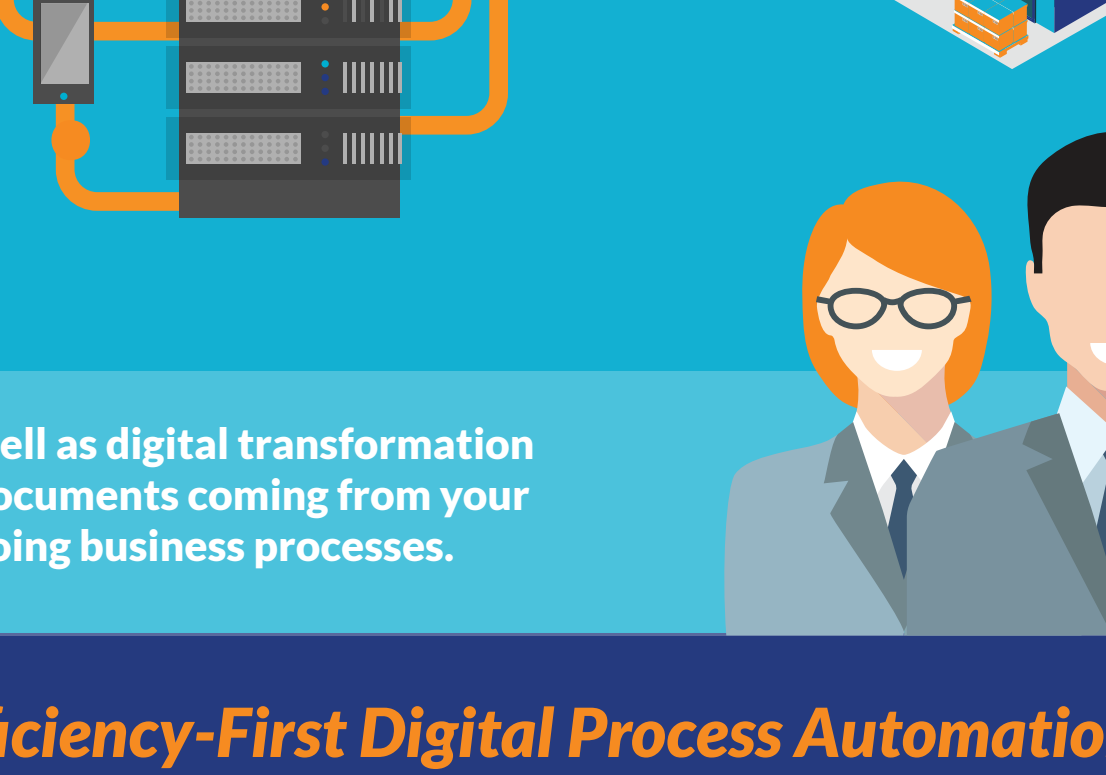

High-Volume

document conversion than the competition.

## Convert thousands or millions of documents

PDF Compressor is ideal for organizations who need to convert thousands or millions of documents per year for **archiving, compliance, accessibility, and for optimizing customer experience** and core business process efficiency.

## Digital Optimization

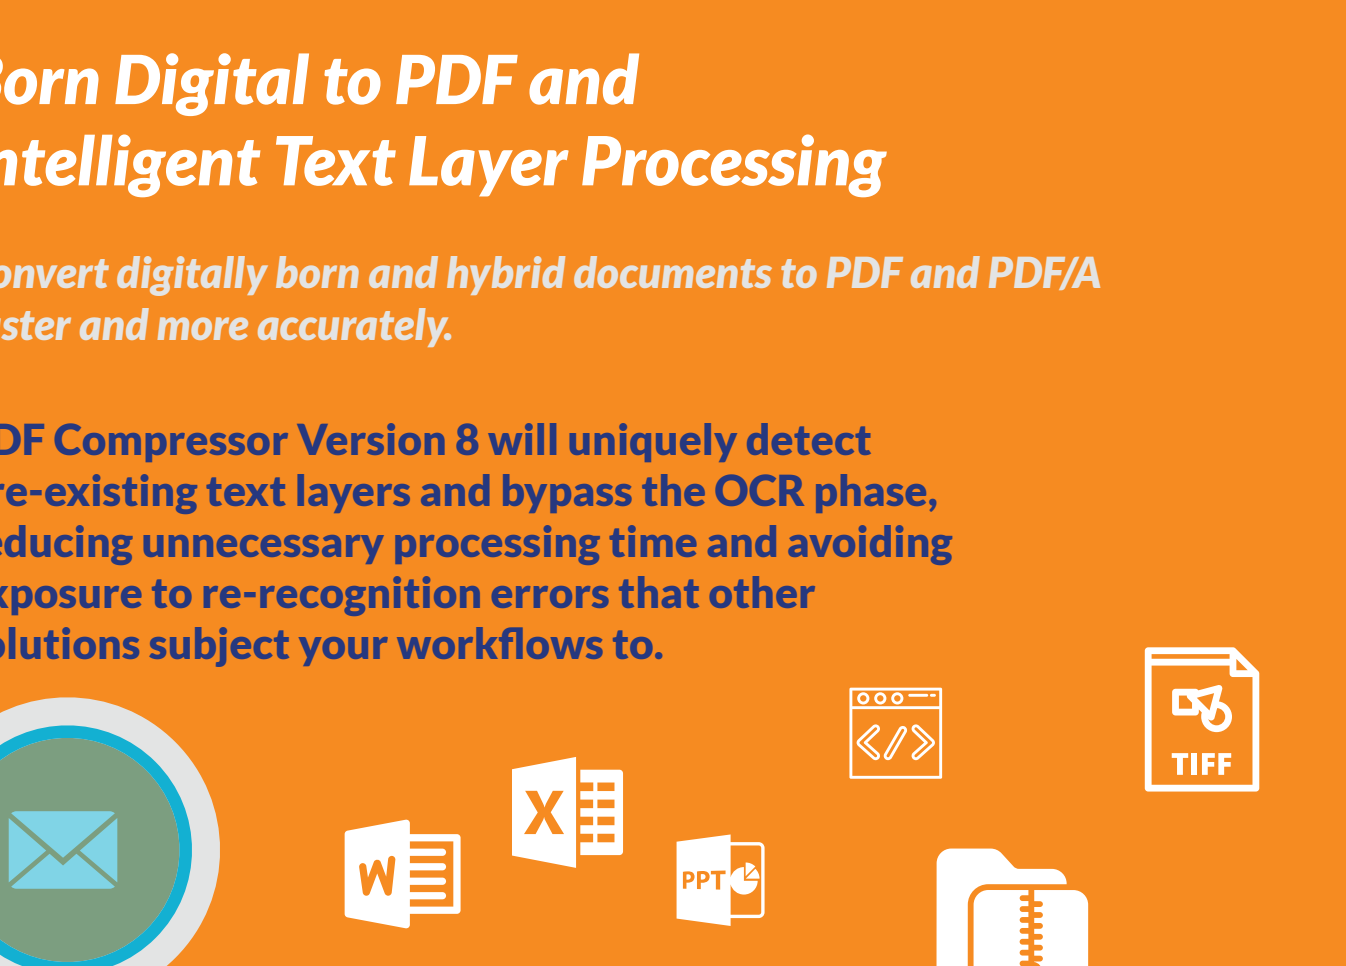

The solution is flexible enough to work well on backlogs of documents sitting in a repository (or that old warehouse, yikes!)

as well as digital transformation of documents coming from your ongoing business processes.

## Efficiency-First Digital Process Automation

PDF Compressor Version 8 is designed for the business user with more automation features than other solutions, including intuitive **job ticketing, watch folders, and remote management** as an unattended Windows service.

## High-Volume Processing:

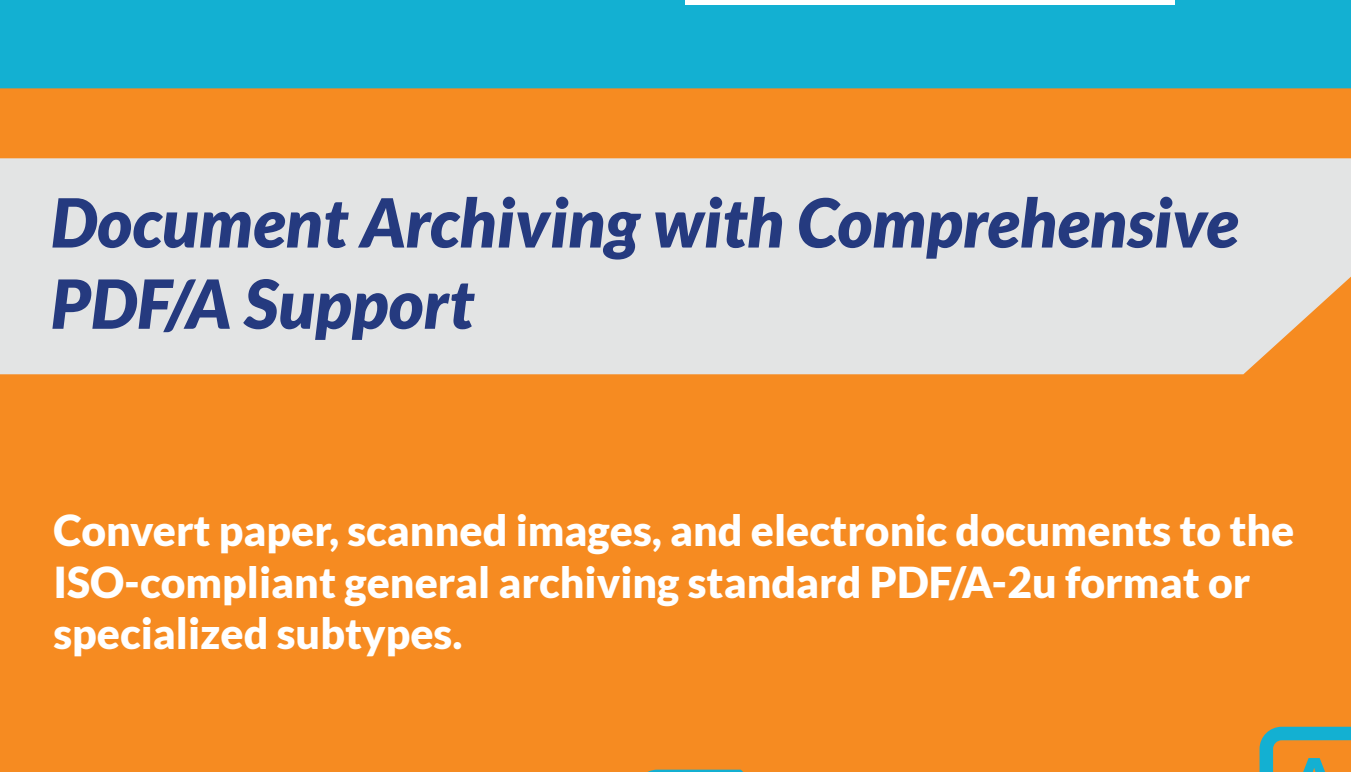

**Batch job conversion, easy priority control, and multi-threading** enable high-volume document optimization at digital speed.

## Born Digital to PDF and Intelligent Text Layer Processing

Convert digitally born and hybrid documents to PDF and PDF/A faster and more accurately.

PDF Compressor Version 8 will uniquely detect pre-existing text layers and bypass the OCR phase, reducing unnecessary processing time and avoiding exposure to re-recognition errors that other solutions subject your workflows to.

## Industry-Leading Compression Rates up to 100:1

The software boasts unparalleled, industry-leading MRC compression that compresses scanned image documents, up to ratios of 100:1 for color and 10:1 for black and white.

## Faster Customer Experience and Internal Operations

Compression enables faster email and access to documents, especially on mobile devices, for faster customer experience and internal operations.

## Create Accessible, Tagged PDFs Automatically

PDF Compressor Version 8 automatically creates tagged PDF files from unstructured, scanned documents in addition to structured, electronic records.

## Document Archiving with Comprehensive PDF/A Support

Convert paper, scanned images, and electronic documents to the ISO-compliant general archiving standard PDF/A-2u format or specialized subtypes.

## World-Class Customer Support and In-House PDF Expertise

When your organization chooses Foxit PDF Compressor, you get a highly responsive support team with a reputation for brilliant customer service.

## In-house PDF Experts

Plus, with in-house PDF experts at Foxit, your IT unit won't have to worry about ineffective communication with third-parties and middlemen.
