

Workspace

Turn a folder of documents into one finished report.

Foxit Workspace is a project-based AI environment. Create a project, add source files, and a goal-oriented agent produces a finished report, presentation, or diagram.

Folder to Report

Go from source documents to one finished output without assembling by hand.

Cross-Document Intelligence

Ask across every document in the project at once, unlocking hidden cross-references.

Connected Tools

Bring in context from tools you already use via Model Context Protocol (MCP).

Unmatched Core Capabilities

01 Goal-Oriented AI Agent
Reads across all project documents and produces a beautifully structured finished deliverable.

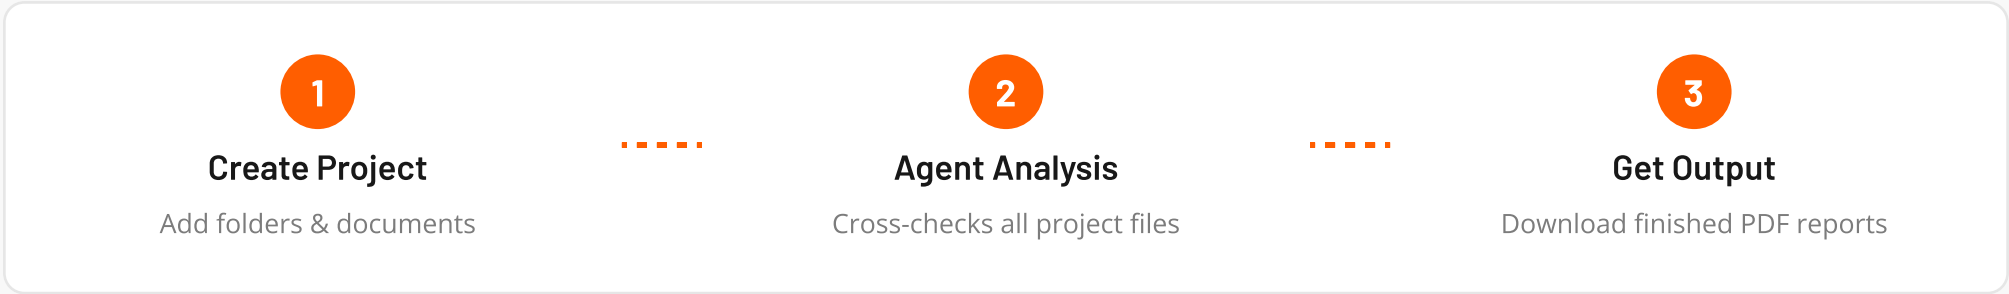

02 MCP-Connected Tools
Deep integration with Atlassian, Asana, Notion, HubSpot, and Figma for real-time external context.

03 Multimodal Output
Generate polished text reports, presentation slides, mind maps, structured data tables, and diagrams.

04 Skills Automation
Deploy one-click presets like Summarize, Mind Map, or custom-programmed Skills tailored to your teams.

05 Multi-Model Support
Switch AI models per session or seamlessly connect your own enterprise LLM licensing.

How It Works

Platform Availability

Web Application

workspace.foxit.com

Desktop Application

Standalone Workspace app

Mobile App

Coming soon (2026)

AI Credit Usage

WORKSPACE – FREE

✓ Free for all Foxit accounts

✓ 300 AI credits /mo for AI Assistant & Workspace

✓ \$4.99 /mo or \$49.99 /yr

✓ 2,000 AI credits /mo

Additional credit packs available to Workspace subscribers.

Supported Connectors (MCP)

- Atlassian
- Notion
- HubSpot
- Fireflies

BEST FIT FOR

✓ Multi-document project teams (research, legal, finance)

✓ Teams using Slack, Asana, Notion, or HubSpot

✓ Existing Foxit PDF Editor/Plus subscribers

NOT A FIT FOR

☹ Teams requiring shared multiplayer workspaces

☹ Buyers requiring SOC 2 Type II at launch

☹ Mobile-first users without desktop access

Common Questions

Q: Does it edit my PDF?

A: No, it processes source documents to synthesize new outputs. Edit PDFs directly with Foxit PDF Editor.

Q: Can I share project spaces?

A: Workspace accounts are currently single-user; team sharing options are scheduled for late 2026.

Q: Is Workspace available on mobile?

A: Not at launch. Desktop browser and Web access are fully optimized.
