Foxit

CONNECTORS

**Seamlessly Connect Your Agreements
to the Tools You Use Every Day**

Foxit Connectors eliminate manual effort by integrating 40+ of your favorite business platforms with Foxit solutions. Pull documents, personalize agreements, and sync signed files automatically—without IT hassle.

What Do Connectors Do?

Secure Document Retrieval and External Storage

- **Seamless Access:** Instantly pull agreements, contracts, and forms from platforms like Google Drive, Box, and SharePoint —no manual downloads required.
- **Effortless Archiving:** Completed agreements sync automatically back to your storage solution, ensuring secure, organized, and audit-ready records.

Auto-Fill and Personalize Agreements with Platform Data

- **Data Integration:** Pull essential details from HR, CRM, and business platforms like Workday, HiBob, and iCIMS to auto-fill agreements with accuracy.
- **Faster, Error-Free Workflows:** Dynamically merge platform data into reusable templates to reduce manual data entry and ensure consistency.

Send, Sign, and Track Agreements with Ease

- **Seamless eSignature Workflows:** Send agreements for signature directly from Foxit eSign, eliminating manual steps and keeping processes efficient.
- **Real-Time Status Tracking:** Monitor every stage of the signing process, from sent to completed, ensuring nothing falls through the cracks.
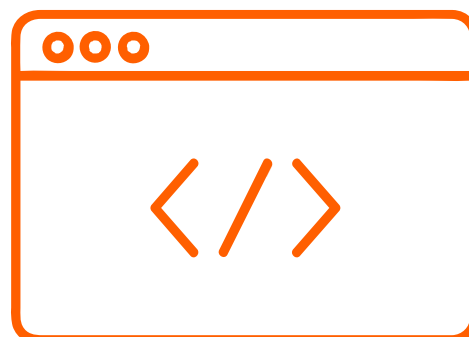

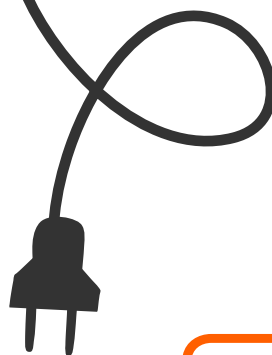

Sync Executed Agreements

- **Automatic Agreement Storage:** Completed, legally binding agreements are automatically synced back to your platform, keeping records organized and accessible.
- **Audit-Ready Compliance:** Ensure every signed document includes an audit trail and signature certificate for security and regulatory compliance.

Automate Agreement Workflows

Eliminate manual file uploads and streamline the signing process across platforms.

No-Code, Quick Setup

Easily integrate your tools with zero IT complexity or hassle.

Compliance & Security Built-In

Maintain audit trails, encryption, and industry-leading security standards.

Sync Completed Agreements

Store legally binding, signed documents directly in your connected apps.

HR & Recruiting – Automate Offer Letters & Onboarding

The Problem: HR teams spend too much time manually generating, sending, and tracking candidate agreements.

How Foxit Connectors Fix It:
- Pull candidate data from Workday, HiBob, and other HR platforms to auto-populate offer letter templates.
- Send agreements for eSignature instantly, reducing delays and administrative effort.
- Sync completed documents back into your HR platform for compliance and recordkeeping.

Sales & Contracts – Streamline Proposal & Agreement Processes

The Problem: Sales teams struggle with inefficient contract workflows, slowing down deal closures.

How Foxit Connectors Fix It:
- Access contracts directly from Google Drive, SharePoint, or OneDrive without manual uploads.
- Personalize agreements using CRM or customer data, ensuring accuracy and efficiency.
- Sync signed contracts back to storage platforms with audit trails and signature certificates.

Procurement & Vendor Management Securely Manage Vendor Agreements

The Problem: Vendor contracts are scattered across multiple systems, making tracking and compliance difficult.

How Foxit Connectors Fix It:
- Pull agreements directly from Box or Dropbox for seamless contract management.
- Automate approval workflows and eSign vendor agreements with complete visibility.
- Store signed agreements back in your document management system for easy access and audits.

Legal & Compliance – Maintain Regulatory & Security Standards

The Problem: Legal teams face challenges ensuring contracts meet compliance and security requirements.

How Foxit Connectors Fix It:
- Ensure agreements meet industry regulations (eIDAS, HIPAA, SOC 2) with secure workflows.
- Track every document action with audit trails, ensuring transparency and compliance.
- Store finalized contracts securely in your preferred platform with encryption and signature authentication.
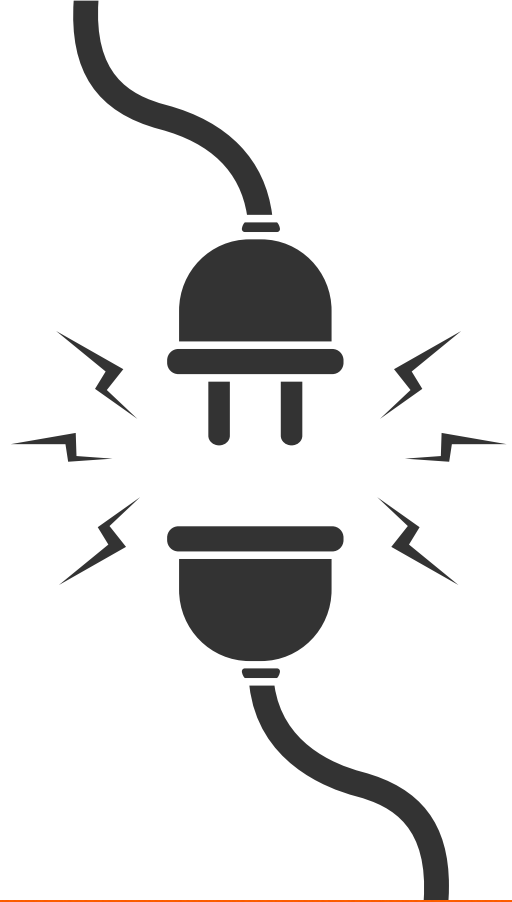

How to Get Started

Explore Your Options: Visit https://www.foxit.com/esign-pdf/integrations/ or visit the Connectors tab in your Foxit eSign account to browse available integrations.

Activate & Customize: After purchase, go to the Connectors tab in your Foxit eSign account to activate your chosen Connector. Need more? Add or swap Connectors anytime to fit your workflow needs.
