Foxit eSign: Secure, Efficient, and Patient-Centric Healthcare Document Management

Healthcare organizations can transform document management, boost patient care, and stay compliant with ease using Foxit's intuitive eSign solutions—designed to meet your needs with flexible pricing.

Healthcare eSignatures and Compliance Simplified with Foxit eSign

- HIPAA Compliance
- CFR Part 11
- Multi-Factor Authentication (MFA) and Knowledge-Based Authentication (KBA)
- Audit Trails and Certificates

Optimize Healthcare Document Workflows for Maximum Efficiency using Foxit eSign Business

- Unlimited Envelopes**
Send as many documents as needed without limits, ideal for patient consent forms and medical agreements.
- Signable Web Forms**
For seamless intake and registration, patients can easily complete and sign forms on your website, tablet, or kiosk.
- Bulk Sending**
This method distributes documents like consent forms or patient agreements to multiple recipients at once, streamlining the process.
- Document Tracking**
Monitor the status of all healthcare documents for fast follow-up and efficient workflow management.

Foxit eSign Business Includes Valuable Patient and Provider Solutions.

- On-Demand Notary**
Notarize critical healthcare documents like consent forms and advanced directives right within your workflow—convenient and compliant.
- Foxit Pay Integration**
Streamline billing by collecting payments directly through signed agreements for faster and hassle-free transactions.
- Enhanced Branding**
Elevate your professional image with customized eSign experiences featuring your facility's logo and branding.
- User Management**
Effortlessly assign roles and manage access levels to keep your staff in sync and secure.

How Foxit eSign Business Supports Healthcare Workers

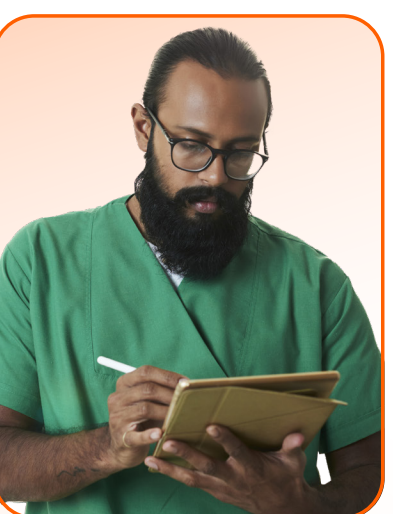

Healthcare Administrators

- **Lighten the administrative load** by automating document workflows, freeing up time for what matters most.
- **Enjoy peace of mind** with built-in HIPAA compliance, knowing patient documents are always securely signed and tracked.
- **Empower your team** with easy access controls, making document management across departments a breeze.

Medical Records Managers

- **Say goodbye to manual paperwork** with automated workflows and bulk sending for disclosures and agreements, reducing time delays.
- **Achieve compliance effortlessly** with audit trails that provide complete transparency over document access and updates.
- **Facilitate seamless record sharing** across departments while maintaining strict data security.

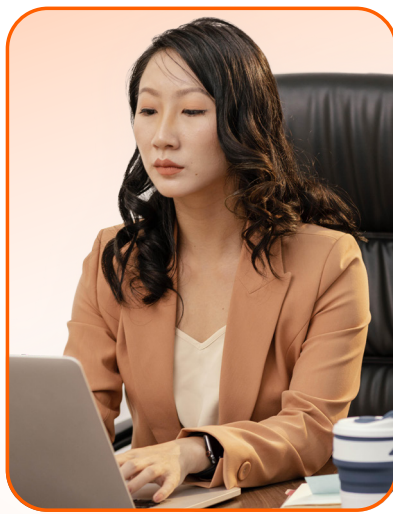

Patient Intake Coordinators

- **Stay on top of everything** by tracking form completion in real time, ensuring no documentation is missed.
- **Accelerate patient intake** using digital forms on tablets, kiosks, or online, simplifies intake and reduces wait times.
- **Streamline preparation for appointments** by sending consent forms or patient agreements in bulk, saving time during busy intake periods.

Legal and Compliance Officers

- **Stay on the safe side** with audit trails and certificates that offer detailed legal validity and tracking.
- **Adapt quickly to regulatory needs** with easy-to-enable compliance settings for HIPAA, CFR Part 11, and more.
- **Fortify document security** using advanced authentication like MFA and KBA, ensuring only the right individuals have access.

Billing and Financial Coordinators

- **Streamline payment collection** with Foxit Pay, enabling patients to pay directly through signed agreements.
- **Reduce repetitive tasks** using bulk sending for billing agreements, reaching multiple patients at once.
- **Avoid billing headaches** by tracking payment statuses in real-time, ensuring nothing slips through the cracks.
